

Hannah Friedman

Tampa, FL, 33617 | (216) 502 - 9164 | Hfriedman13@gmail.com

Education:

BACHELORS | AUGUST 2021 | AUBURN UNIVERSITY

- Major: Computer Science

BACHELORS | DECEMBER 2017 | FLORIDA GULF COAST UNIVERSITY

- Major: Sociology
- Minor: Psychology

Projects:

- PERSONAL WEBSITE: www.hfriedman.me | github.com/Hfriedman13/personalSite

An interactive web app written with react, JavaScript, CSS and HTML. The webpage provides interactive features which allows the user to view information about myself, my projects, and my resume. The site also provides links to my GitHub and LinkedIn profiles, as well as a contact modal.

- WEB BROWSER: github.com/hfriedman13/2713project

Working with C# and Visual Studio I created a web browser with the ability to open new tabs, have multiple tabs open, set a home page, create / set a list of bookmarks, view browsing history, print pages, and save pages as PDFs.

- IOS APPS:

- In the process of completing an iOS development bootcamp, throughout the camp I have developed a variety of apps using the MVC design pattern. Apps ranging from timers to weather apps.

- I am currently in the process of creating and publishing an iOS app for runners. It will track your route, pace, and time. It also sets goal markers to keep the user motivated to keep running and using the app.

About me:

An ambitious beginner looking for a challenge. Currently pursuing my bachelor's in computer science, I am humble and hungry to learn new skills and grow as a developer. I have a background in various coding languages such as Java and Swift. Professional strengths include, creative problem-solving skills, determined, focused and honest in my abilities. I have an earnest mind set from 4+ years of retail management.
